Was mentioned in the end of day OPA report sometime last week that OW will take the lead in responding and we may be given an opportunity to review what Hq generates. And I think we included it in last week's weekly too. Leave it up to you guys if you want to mention again.

How about we get in the weekly that this is controlled out of HQ and when we might have a chance to weigh in on a draft (if we know). Just a thought.
